UCEAP Quarter Units 5.50
UCEAP Semester Units 3.70

Course Description
This lecture introduces students to social demography and family sociology. Topics cover an introduction to family theories, different methodological approaches for studying family change, and the foundations of social demography including demographic methods. Students become familiar with diverse theoretical approaches and facts about families and populations in (East and West) Germany and place them in European and global comparison. Students also discuss normative and ethical concerns in the study of families and populations.

Language(s) of Instruction
German
