ANTHROPOLOGY OF THE BUILT ENVIRONMENT
Country United Kingdom - England
Host Institution University College London
Program(s) University College London
UCEAP Course Level Upper Division
UCEAP Subject Area(s) Urban Studies Anthropology
UCEAP Course Number 155
UCEAP Course Suffix
UCEAP Official Title ANTHROPOLOGY OF THE BUILT ENVIRONMENT
UCEAP Transcript Title ANTH OF BUILT ENVIR
UCEAP Quarter Units 6.00
UCEAP Semester Units 4.00

Course Description

Addressing urban change and apprehending the complexity of cities demands a distinct interdisciplinary approach across the arts, sciences, social sciences, and humanities, each bringing their own theoretical and methodological perspectives to bear on a phenomenon that has traditionally been studied from within disciplinary silos. This course acknowledges the complexity of cities as distinctive material environments for social life, raising questions of how the different dimensions of the built (and imagined) urban environment permeate everyday experiences of the contemporary city.
