UCEAP Semester Units 4.00

Course Description
This course explores the connections between emotions, social life and social identities. It examines the prevalent sociological and anthropological literature on emotions, morality and consciousness. Attention is given to the concept of personhood and the cultural meanings circulating through the expression of emotions. The course demonstrates how cultural practices serve to organize particular emotional responses to particular social and cultural environments; why collective emotional experiences are regularly mediated by the means of symbolic representations.
