3.00

**UCEAP Semester Units**

2.00

## Course Description

Through the study of this course

- (1) Knowing the structural interpretation of the previous sociological mainstream, the students will be able to master the origin, the relationship between cultural concept, culture and structure (society) in development, transformation and debate.
- (2) Through extensive reading of existing research model articles, the students can grasp the cultural perspective to interpret several social phenomena (Cultural Society: understanding the cultural influence on social processes) or the basic skills to analyze cultural phenomena (Sociology of Culture: understanding the social influences on cultural formations).
- (3) Help the students to be familiar with classical and contemporary empirical research and theoretical literature on culture, and help graduate students to choose, standardize and complete their own research topics (including cultural and structural content topics).
