University of Hong Kong

**UCEAP Course Level**

Upper Division

**UCEAP Subject Area(s)**

Civil Engineering

**UCEAP Course Number**

111

**UCEAP Course Suffix****UCEAP Official Title**

TRANSPORTATION ENGINEERING

**UCEAP Transcript Title**

TRANSPORTATION ENGR

**UCEAP Quarter Units**

5.00

**UCEAP Semester Units**

3.30

## Course Description

This course introduces key terminologies and concepts, and describes key considerations in transportation engineering. The course uses the application of mathematical and statistical skills to derive or obtain key results in transportation engineering. The course teaches how to identify, formulate and solve transportation engineering problems and design the geometry of highways with the considerations of safety and physical constraints. The course analyzes transportation engineering problems, transportation survey data, and transportation model results. Assessment: written exam (80%), and in-course assignment (20%).

## Language(s) of Instruction

English

## Host Institution Course Number

CIVL2111

## Host Institution Course Title

TRANSPORTATION ENGINEERING

## Host Institution Campus

## Host Institution Faculty

## Host Institution Degree

## Host Institution Department

Civil Engineering
