**UCEAP Quarter Units**

4.50

**UCEAP Semester Units**

3.00

## Course Description

This course teaches effective communication skills in science and engineering fields, such as effective reports and summaries, how to communicate with employers, and how to write academically as well as in the workplace. The course covers how to write a CV, including things to highlight and things to avoid; writing a statement of purpose; and interviewing. Students undertake their own research topics and write a scientific publication, prepare a scientific poster, and present their findings to the class.
