INTRO TO WEB DESIGN

**UCEAP Quarter Units**

6.00

**UCEAP Semester Units**

4.00

## Course Description

This course introduces design and development practices for multimedia content, focusing particularly on web sites. Modern design practices for the web are taught, framed by an introduction to human-centered design techniques, particularly heuristic based interface design guidelines for web interfaces and web accessibility from a global perspective. Today's web sites need to be both well designed and dynamic, thus the course also introduces some basic scripting techniques for going beyond static content. The focus of learning is activity based and incorporates both individual and team based exercises.

## Language(s) of Instruction

English

## Host Institution Course Number

DECO1400

## Host Institution Course Title

INTRODUCTION TO WEB DESIGN

## Host Institution Campus

Queensland

## Host Institution Faculty

## Host Institution Degree

## Host Institution Department

Information Technology and Electrical Engineering
