**Course Description**

This course explores the theoretical and practical concepts of the varieties of the English language around the world. It discusses traits of these varieties of English such as vocabulary, pronunciation, and grammar. Topics include: language, dialect, and accent; regulatory varieties and vernacular varieties; English as a native language, a second language, and a foreign language; dominant normative varieties-- American English and British English; other national varieties; vernacular varieties in the English-speaking world; English as a second language-- Africa and Asia; English as a foreign language for international communication; models of English for teaching foreigners.

**Language(s) of Instruction**
English
