UCEAP Course Number 102
UCEAP Course Suffix
UCEAP Official Title US ECONOMIC HISTORY
UCEAP Transcript Title US ECONOMIC HISTORY
UCEAP Quarter Units 3.00
UCEAP Semester Units 2.00

Course Description

will be reviewed later.

This course reviews the economic history of the United States from the colonial era to the present. It studies the features and development of the American economy and examines the major events that have transformed it over its history. The course provides an in-depth analysis on how markets, institutions and government policies have evolved in the U.S. and how they have contributed to economic growth. Economic evolution of the U.S. since the colonial period onward has been quite unique and impressive. What is more, most of the global economic problems we face today, such as sovereign debt problems, financial crisis, recessions, income inequality, poverty, technological change, globalization of labor and others, the U.S. has played a critical role.
