Upper Division

**UCEAP Subject Area(s)**
Economics

**UCEAP Course Number**
127

**UCEAP Course Suffix**
A

**UCEAP Official Title**
ENVIRONMENTAL ECONOMICS

**UCEAP Transcript Title**
ENVIRONMENTAL ECON

**UCEAP Quarter Units**
6.00

**UCEAP Semester Units**

4.00

**Course Description**

The course familiarizes students, quantitatively and qualitatively, with important issues in environmental economics and environmental policy making such as anthropogenic global warming, the sustainable use of resources such as fish and forests, and environmental pollution. The course gives you hands-on experience in how to model complex economic and environmental systems, helps you understand the basic natural processes affecting the environment, introduces you to you the main tools and challenges involved in environmental valuation, shows you ways to determine the efficient level of pollution, and discusses the instruments available to policy makers to reach such targets.

**Language(s) of Instruction**
English

**Host Institution Course Number**
ECON0052

**Host Institution Course Title**
ENVIRONMENTAL ECONOMICS

**Host Institution Course Details**
