Course Description

The course focuses on the role of banks and other financial institutions. The course discusses (1) the main types of financial institutions and the risks they face; (2) banks' liquidity management and systemic risk; (3) the regulatory framework, with particular emphasis on capital requirements and the resolution framework, and the relationship with accounting; (4) executive compensation; and (5) the challenges for the financial industry due to the low interest rate environment and the Covid-19 crisis. Particular attention is devoted to the European banking industry throughout the course. The course discusses topics including commercial and investment banks: Activities and challenges; financial risks; liquidity and systemic risk; interconnectedness between banks and mutual funds and hedge funds: implications for systemic risk; executive compensation; capital, liquidity, and macro-prudential regulation; the relationship between accounting and prudential regulation; bank resolution framework and state aid; low interest rate environment (LIRE); and post Covid-19: main events and the future of banking.
