COURSE DETAIL

MICROBIAL BIOTECHNOLOGY
Country Korea, South
Host Institution Yonsei University
Program(s) Yonsei University
UCEAP Course Level Upper Division
UCEAP Subject Area(s) Biological Sciences
UCEAP Course Number 107
UCEAP Course Suffix
UCEAP Official Title MICROBIAL BIOTECHNOLOGY
UCEAP Transcript Title MICROBIAL BIOTECH
UCEAP Quarter Units 4.50
UCEAP Semester Units 3.00

Course Description

This course provides extensive information about diverse fields of microbial biotechnology, further extending from Basic Microbiology and Applied Microbiology. The class covers three major fields of microbial biotechnology, Medical Microbiology, Industrial Microbiology, and Environmental Microbiology, which play pivotal roles in medicine, natural environment, and bioindustry in the future human society. Through this class students are expected to have comprehensive vision about future science as well as microbial biotechnology. It is highly recommended that students have familiarity with general microbiology and applied microbiology.

Language(s) of Instruction
English

Host Institution Course Number
BTE3402

Host Institution Course Title
