4.00

Course Description
In this module, the region is studied and analyzed as an arena of economic development, as well as an arena for everyday activities of businesses and people. The analysis is divided into four parts: the regional consequences of structural transformation and companies' basic dependence of the regional resource environment; business systems with special focus on clusters and regional innovation systems; the social and industrial strategies for regional development; social consequences/welfare/living conditions, purchasing power, labor market, living conditions in broader meaning.
