UCEAP Course Suffix
UCEAP Official Title COMPUTATIONAL METHODS FOR ECONOMISTS
UCEAP Transcript Title COMPUT METHODS/ECON
UCEAP Quarter Units 6.00
UCEAP Semester Units 4.00

Course Description

This course covers intermediate mathematical methods presented in contexts relevant for economists and students of connected subject fields. It equips students with operational skills in applying intermediate, applied-mathematical methods to problems taken from various contexts in economics and social sciences; and to train students in planning and systematically executing lengthy calculations both on paper as well as using software aids such as Mathematica/Matlab/Python.
