Course Description

Social psychology is an important branch of psychology. It uses scientific methods to solve the core problems in our human social life. It is the best guiding course for people to understand themselves, understand society, and understand the relationship between themselves and society. The course covers a wide range of content, including all aspects of social life, from "who am I" to "how do I know the world", from anti-social to pro-social behavior, from love to prejudice. But there is a core idea that we will learn to analyze the social phenomena around us from the perspective of social psychology, and use the knowledge of social psychology to get along with people better. Course topics include: introduction to social psychology; self in society; social cognition; impressions; attribution; attitude; socialization; conformity and crowd psychology; persuasion; influence of public; interpersonal conflict; aggressive behavior; prosocial behavior and interpersonal attraction.

Textbook: "Social Psychology 9th Edition" by Aronson et al. Pearson Education.

Grading Policy: Participation 10%, Psychology Experiment 10%, Group Report and Presentation 30%, Final Exam 50%
