Course Description

The Chemistry 1A and 1B 20-point courses together provide the first year course for students taking chemistry-based degrees. They also serve as a foundation in chemistry for other physical science students. These courses are designed to take students with diverse backgrounds and provide them with thorough grounding in the fundamentals of chemistry and provide a basic training in the essential laboratory skills for practical chemistry. The courses consist of lectures, tutorials, workshops, and laboratory classes in inorganic, organic, and physical chemistry.

Language(s) of Instruction
