Course Description

This course examines psychological assessment, personality, and psychopathology. The assessment portion of the course will include key concepts related to personality and intelligence testing. The psychopathology portion of the course is an introduction to the study of maladaptive behaviour and mental disorders. The course will provide an overview of common mental disorders, including anxiety, mood, eating, childhood, and psychotic disorders. Emphasis will be placed on diagnostic criteria, contemporary theories of psychopathology, and empirically supported approaches to treating mental disorders.
