Course Description

The field of psychology aims to examine the scientific basis of human behavior, including sensation and perception, learning and thinking, motivation, and emotion. Psychology encompasses a broad range of topics that can be applied to diverse fields, with the ultimate goal of better understanding what determines and drives human behavior such that we may contribute to better the lives of individuals across age, gender, and culture. This course provides a general survey of topics in psychology and discusses fascinating research findings that impact our everyday behavior and functioning.
