UCEAP Semester Units 4.00

Course Description

Using a variety of texts and genres as case studies (including the short story, novel, theater, and poetry), this course explores the way in which 20th-century writers in the Hispanic world have reflected upon their social and cultural realities. Through an examination of new aesthetic trends and new treatments of stock themes such as religion, politics, and love, it appraises the very characteristics of modern Latin American and Peninsular Spanish cultures.
