HUMAN COMP INTERACT

UCEAP Quarter Units
4.50

UCEAP Semester Units
3.00

Course Description
This course discusses issues related to human-technology interaction, with an emphasis placed on how people behave, feel, and think when they interact with/within information and communication technologies. For this purpose, this course classifies information technologies into four categories: (1) technologies as social agents, (2) technologies as manipulatable interfaces, (3) technologies as surrounding environments, and (4) technologies as communication channels, and covers topics related to each perspective.

Language(s) of Instruction
English
