ONLINE EXPERIMENTS FOR LANGUAGE SCIENTISTS

**UCEAP Transcript Title**

ONLI EXPR LNG SCINT

**UCEAP Quarter Units**

8.00

**UCEAP Semester Units**

5.30

## Course Description

This practical course provides a rapid tour of online experimental methods in the language sciences. Each week students cover a paper detailing a study using online methods, and work with code to implement a similar experiment. They also look at the main platforms for reaching paid participants, e.g. MTurk and Prolific, and discuss some of the challenges around data quality and the ethics of recruiting participants through those platforms.

### Language(s) of Instruction

English

### Host Institution Course Number

LASC10115
