Course Description

This course examines the main historical events of the region from the beginning of the 19th century. It covers the various controversies surrounding the population of the sub-continent and analyzes the formation of large pre-Columbian civilizations. This part of the course explores the population that preceded the Tawantinsuyu in the Andres and the Empire of the Triple Alliance in Mexico, often dismissed in the analysis. It examines the consequences of the arrival of the Spanish and the Portuguese by considering the large events of the "Conquest" and colonization.
