Course Description
Analytical sociology is a strategy for understanding the social world. It is concerned with explaining important macro-level facts such as the diffusion of various social practices, patterns of segregation, network structures, typical beliefs, and common ways of acting through the micro-level interactions of individuals. This course covers topics such as the whole and the parts, wisdom of the crowds, social influence, success-breeds-success dynamics, prevalence of norms that nobody wants, contagion of crime, social echo chambers, opinion polarization, segregation dynamics, and social networks.
