UCEAP Course Number 112
UCEAP Course Suffix
UCEAP Official Title GOVERNING CLIMATE CHANGE
UCEAP Transcript Title GOV CLIMATE CHANGE
UCEAP Quarter Units 4.50
UCEAP Semester Units 3.00

Course Description

This course explores the governance initiatives that are emerging in response to the phenomenon of anthropogenic climate change which, as a truly global problem, implicates and affects all parts of the world and makes these initiatives necessarily more speculative, less established, and more rapidly evolving than most other governance initiatives. The topics and readings for the course foreground the theme of governance and explore the various institutions and techniques that have evolved, or might evolve, to address the phenomenon of climate change.
