Course Description

This course focuses on public policy and public finance, especially on their basic system and historical and theoretical backgrounds. Through cases of various nation states and international organizations, the course discusses the main issues of public policy and public finance, especially regarding their actors, leadership, resources and strategies. The course pays special attention to the relationship between nation states and international organizations in terms of public policy coordination and fiscal adjustments. Recent topics such as performance measurement, policy evaluation and performance-based project budgeting are also discussed in the course.
