UCEAP Transcript Title INTRO CRIMINOLOGY
UCEAP Quarter Units 8.00
UCEAP Semester Units 5.30

Course Description

This course gives an introduction to a wide range of questions about offending behavior, crime, and its control, drawing on criminological theory and research. The course introduces the origins and development of thinking about crime, patterns of offending behavior, the problems of determining what we know about crime and the implications for how we should respond. In particular, the course encourages students to think independently and critically, and to apply theoretical ideas to real-world problems of crime and its control.
