Course Description

This course provides a study of the process of formation and development of social thought in Latin America, from the establishment of nation states to the present day. It analyzes prevailing conceptual frameworks that examine the problems of greatest cultural, economic, political and social significance of Latin America. It looks at the process of evolution in its historical context, analyzing the most representative examples of each stage of its development and discussing their degree of reliability or uncertainty for the diagnosis of political, social, and economic problems of Latin America.
