## **Course Description**

In this course, students work individually and in groups to learn brainstorming techniques and design methodologies, improve drafting and drawing skills, improve communication and presentation skills, and expand creativity. Students learn to think more creatively about engineering design and discover the modern design landscape. The course culminates with a product design challenge project and essay, as well as an exhibition of each student's work throughout the term. Students also keep a daily drawing journal to experiment with different drawing styles and techniques as well as keep track of individual progress. Assessment is by coursework.
