UCEAP Quarter Units 4.50
UCEAP Semester Units 3.00

Course Description
This course discusses the basic concepts of architecture and urbanism, as well as elemental skills in modeling and drafting necessary to architecture design. It covers the principles of scale, dimension, proportion, and the recognition of spatiality and flows of architecture design. In the second half of the course, students prepare an architectural design for a single-family house. The final presentation includes a three-dimensional scale model, along with orthogonal and analytical drawings for the design.
