**UCEAP Semester Units**

**Course Description**

This course provides a critical analysis of the dynamics of growth and convergence of European economies from 1870 through 2005, and the contribution of the EEC-EU to monetary integration and macroeconomic stability in Western Europe. Other topics covered include: synchronicity of European business cycles over the long run; formation process of the European Economic Space in the 20th century: trade, capital flows, migration; the "economic constitutions" of Europe: from Rome 1957 through Maastricht 1991; impact of the EEC on the process of integration; origins and development of common policies: the Common Agricultural Policy (CAP) and the Policy of Economic and Social Integration; monetary integration, nominal convergence and macroeconomic stability: from Bretton Woods (1958-1973) to the European Monetary System (1979-1992); creation of the Economic and Monetary Union (EMU), the Growth and Stability Pact, and the impact of the Euro on the process of integration. NOTE: This course is the same as HIST/ECON/EU ST 109 but taught in English
