Course Description

This course is part of the Laurea Magistrale program in Economics. Enrollment is by consent of the instructor. The course is intended for students who have a strong background in economics. The course focuses on corporate and investment banking activity, with particular attention on venture capital and private equity financing. Topics covered include: investment banking, private equity, venture capital buyouts, structured finance, the venture capital cycle (fund-raising, screening and valuation, deal structuring, monitoring, divestment), financial tools needed to evaluate investments, and financing decisions in high-growth potential firms. Required Reading includes: OPTIONS, FUTURES, AND OTHER DERIVATIVES by J. Hull. Assessment in based on a written in class final exam. Students are offered the option of solving a case study and delivering the solution to the instructor as an additional optional assignment. Students are required to solve the case study as a group.
