UCEAP Quarter Units 3.00
UCEAP Semester Units 2.00

Course Description
This class explores important aspects of East Asian political culture. What are the similarities and differences in attitudes between citizens in East Asian societies and other parts of the world? Have so-called 'Asian values' affected political, economic, and social outcomes? Do processes of modernization-induced value change in other advanced industrialized countries apply to East Asia? And to what extent can we speak of a common East Asian identity? Lectures and discussions in this course are focused on these questions.

Language(s) of Instruction
English
