Course Description

This course studies cultural taste, cultural status, and cultural value, and considers the history, development, and significance of the academic study of popular culture. The course offers students of both cultural studies and media studies an opportunity to consider related issues to pursue: historically-rooted accounts of how the study of popular culture developed in British higher education and of some of the key conceptual approaches which shaped those studies, an exploration of how the bringing together of popular culture and “the academy” has posed, and continues to pose; problems related to conceptions of cultural hierarchy, questions of taste and value; and definitions of educational worth.
