HIST LINGUISTICS

UCEAP Quarter Units
4.50

UCEAP Semester Units

3.00

Course Description
The course introduces students to the academic field of historical linguistics, including its fundamental questions, research objectives, and complex methodology. The two major fields of historical linguistics are presented: the description and reconstruction of older documented and undocumented languages and the explanation of language change processes. In addition to the central theme of genetic language relationships (language families), areas and typological language similarities are also discussed.

Language(s) of Instruction
German
