Course Description

This course is part of the LM degree program and is intended for advanced level students, Enrolment is by consent of the instructor. This course discusses the economic principles of financial transactions and financial contracts, particularly the main contingencies pertaining to specific types of financial transactions (purchases, loans, mortgages, etc.). The course reviews the risks associated to different contingencies, how to prioritize them, and how to apply economic techniques to correct risks. The course explores topics including economic theories of the firm; the firm as authority; the firm as a nexus of contracts; the firm and specific investment; law and finance; and international perspectives: Italy, Germany, UK, USA, and Japan.
