Course Description

The course introduces key concepts of culture anthropology, and diversity and provides tools to analyze different approaches to the study cultural differences. Particular attention is devoted to current issues, positionality (race, class, gender, sexual orientation) and the processes of globalization, migration, and intercultural relations. The course discusses topics including, an introduction to cultural anthropology (theoretical approaches); cultures, cultural differences, and diversity; local and global dimensions, borders, and contact areas; migration processes and intercultural relations; language and communication, arts, media, and sports; and concepts of identity and issues of positionality. The course explores these topics in relation to psychology.
