**Course Description**
This course examines the impacts of globalization in both the developed and developing world and its relation to geopolitics. Particular emphasis is placed on the theories of geopolitics and globalization. Topics include the implications of the rise of China and its international relations in the developing world, “shadow globalization” – human, arms, and drug trafficking and resistance to these processes through social movements, among others. The course is taught through a combination of lectures and tutorial discussions.

**Language(s) of Instruction**
English
