UCEAP Semester Units 8.00

Course Description

The course introduces digital media and its theory, history, aesthetics, function, and impact on society. After an introduction to different theoretical perspectives on media (e.g. medium theory and medialization theory), the course turns to topics such as media archaeology and -materiality, digital publics and political communication, media use and participatory culture, misinformation and surveillance. It analyzes social media (e.g. Facebook and Twitter), digital visual media (e.g. photography), and other forms of digital media.
