**UCEAP Quarter Units**

6.00

**UCEAP Semester Units**

4.00

### **Course Description**

This course introduces thinking about modernity through the study of French representations of, and responses to, the city. It examines literary and visual constructions of urban space, which raise questions about the nature of modern experience. The course explores technology and speed, consumption and spectacle, the relationship between the individual and the crowd, center and periphery, the geography of exclusion, and the figure of the flâneur.
