Course Description
This class examines the Seven Years' War through texts from different viewpoints. The war produced a great German hero as well as the vast empire of Prussia. A closer look at the war reveals that it took place on a global scale, and was about more than just the territory that each empire controlled. It had to do with religion, territory, nationalism, and much more. The war took place in Europe, but also in the colonial holdings of the participating empires, such as in the Americas and in Asia. This war could be referred to as a world war and this class analyzes the different viewpoints that support this war being a veritable world war.
