## Course Description

This course is part of the Laurea Magistrale program. The course is intended for advanced level students only. Enrollment is by consent of the instructor. The course focuses on health-related behavioral determinants and offers an overview of some recent policies aimed at improving population lifestyles. The course highlights the following topics: 1) the demand for health and health capital; 2) the behavioral determinants leading to unhealthy outcomes such as obesity and addiction; 3) the trade-offs between health and welfare objectives; and 4) policies aimed at modifying health-related behavior and lifestyles. The course combines theoretical analysis and class discussion of case-studies. The course combines theoretical analysis and discussion of case-studies.
