4.00

**Course Description**

The course first offers students an introduction to the discipline of International Relations to understand some of the key questions that scholars and policy makers have focused on, and how the field has been transformed as the world has changed around them. It then studies a series of pressing contemporary issues, including war, security, development, human rights, and terrorism. These cases and questions are analyzed through different theories including realism, liberalism, constructivism, Marxism, and feminism.
