Course Description

This course examines the theory and practice of forensic psychology, including the potential role of psychology graduates in the criminal justice system. There will be a particular emphasis on the contribution that psychological inquiry and practice can make in efforts to understand the causes of antisocial behavior, including developmental processes; develop and evaluate effective psychological interventions for antisocial behavior; predict who is likely to reoffend; detect and investigate crime; and understand the "process" or "cycle" of offending in the lives of repeat offenders.
