9.00

UCEAP Semester Units
6.00

Course Description

In this course, students chose from a range of research topics in various academic fields and receive one-on-one training from an experienced mentor who helps them refine research ideas, formulate questions, define methods of data collection, execute a plan, and present findings. Students learn how to review background information to their project, summarize its key outcomes, write a clear and concise research paper/report, and present results orally.

Language(s) of Instruction
English
