Course Description

This course introduces management and operation of organizations in the nonprofit sector. In particular, it examines issues unique to the governance and administration of nonprofits, including board management, fundraising, philanthropy, innovation, technology, capacity, nonprofit accounting and reporting, leadership, and network management. Lecture topics include an introduction to the nonprofit sector, governance and accountability, institutional and legal environment, innovation and technology, and collaboration and networking. Students learn both the theories and practical techniques required for an effective manager in nonprofit organizations. Assessment: tutorial assignments (20%), group project (40%), final exam (40%).
