Course Description
This course explores the changing journalistic contexts and news practices with the prevalence of new and emerging media. How are news practices changing as a result? What are the key issues and their implications for democracies? Armed with critical thinking skills and practical knowledge about news media, it hopes to inspire students to come up with their own vision for news as the digital revolution continues to unfold in news rooms around the world. Course topics include the business of news, private platforms v. public good, censorship and global media freedom, social media and user generated content, fake news, data journalism. visualization and multimedia journalism, games and immersive journalism, networked journalism and virtual foreign bureaus, ethical issues in digital journalism, solutions journalism, and liquid journalism.
