UCEAP Transcript Title URBN INEQU/GLBL DEV
UCEAP Quarter Units 6.00
UCEAP Semester Units 4.00

Course Description
This course examines "the urban" in the context of development, globalization, and environmental change. It explores how these processes have impacted differentially on diverse urban dwellers, and the range of ways in which citizens, urban planners, activists, and organizations have pushed back across local and international borders to reshape the city. It also explores some of the more practical and ethical concerns for those interested in working in this field in the future.

Language(s) of Instruction
English
