Course Description
This directed independent research course is for qualified students who have demonstrated academic rigor and curiosity towards a particular research topic. Independent research topics are approved by the CIEE Academic Coordinator and the home institution advisor, and must reflect a topic that is relevant to the location of studies. To be accepted into this course, students submit a structured proposal with topic of exploration, significance of research topic as it relates to the local culture, methodology, a literature review, and a schedule of research milestones. Upon research completion, students present their findings to a panel of academics.
