Course Description
This is an internship through a CIEE course. Students intern at a pre-screened internship opportunity with a community based organization or a local business in a field of their choosing. Students record their experiences in a journal, which is evaluated weekly during the internship, and complete a final assignment and oral presentation. Students have the guidance of a mentor and the Academic Advisor/internship coordinator. Students learn to work successfully in a new environment, meaningfully contribute to the organization and the community it serves, gain valuable work experience, and have the opportunity to reflect and learn throughout the internship.
