Course Description

This course presents salient themes and issues in contemporary Chinese society. As China's rapid development is increasingly focusing worldwide attention on the People's Republic, it is crucial to be able to grasp the social, cultural and political underpinnings of China's unique trajectory and present-day situation. In turn, such an understanding requires acquaintance with an array of key notions and conceptual tools that are methodically introduced and explicated. Assessment: attendance and participation (10%), essays (30%).
